NECTA is a range of organic functional syrups.

Each is packed with clinically dosed adaptogens, nootropics and botanicals.
2 pumps (15ml) added to any drink. Results you can actually feel.

How to use**Choose**

Pick the formula that matches how the customer is feeling or what they need today.

Pump

Add 2 pumps (15ml) directly into any hot or cold drink. No mixing, no measuring.

Enjoy

It blends in instantly. Mild, natural sweetness from the vegetable glycerin base.

Key selling points

●

Clinically dosed Real therapeutic amounts — at or above doses used in peer-reviewed studies. Not label claims.

●

70%+ organic Soil Association certifiable. No sugar, no artificial flavours or sweeteners.

●

Works in any drink 2 pumps into coffee, tea, matcha, smoothies, cocktails. Under 5 seconds.

●

Four wellness pillars Focus, Immunity, Calm, Glow. Most functional brands cover one. NECTA covers all four.

●

Vegetable glycerin base Naturally mild sweetness, mixes effortlessly hot or cold. No dairy, no gluten.

●

Vegan (except GLOW) FOCUS, IMMUNITY and CALM are fully vegan. GLOW contains marine collagen from fish.

**FOCUS** Vanilla Bean

Benefit

Mental clarity & focus

Best for

Professionals, students, anyone needing sustained concentration.

Pairs with

Espresso · Matcha · Green tea · Morning smoothie**Ingredient breakdown — clinically dosed**

Ingredient	Dose	What it does
Lion's Mane	2g	Supports NGF production & cognitive function
Rhodiola Rosea	200mg	Adaptogen — reduces fatigue & mental fog
L-Theanine	80mg	Calm focus; counteracts caffeine jitters
Bacopa Monnieri	300mg	Enhances memory & learning speed
Ginkgo Biloba	140mg	Improves cerebral blood flow

How to talk about it

Customer: "What does FOCUS actually do?"

"It's got Lion's Mane and Rhodiola — both well-studied for mental clarity. L-Theanine gives you calm, clean focus without the jitters. Add 2 pumps to your morning coffee and most people notice the difference within a few days."

Customer: "Is it like a pre-workout?"

"Not quite — it's calmer. No stimulants, no crash. You're sharpening focus and reducing brain fog rather than ramping up energy."

**IMMUNITY** Hazelnut & Orange

Benefit

Daily immune support

Best for

Anyone wanting daily immune defence — especially through winter.

Pairs with

Black tea · Orange juice · Turmeric latte · Hot water & lemon**Ingredient breakdown — clinically dosed**

Ingredient	Dose	What it does
Reishi Mushroom	1.5g	Potent immune modulator & adaptogen
Elderberry	500mg	Rich in antioxidants; supports immune response
Ashwagandha	300mg	Reduces cortisol; supports immune health
Echinacea	150mg	Traditionally used to shorten colds
Vitamin C	200mg	Essential immune vitamin & antioxidant
Zinc	10mg	Supports immune cell development

How to talk about it

Customer: "Does it actually work?"

"Reishi, Elderberry and Vitamin C at the doses in here are the same ones used in clinical trials. Most supplements use trace amounts for the label claim — NECTA doesn't."

Customer: "When should I take it?"

"Any time, any drink. Morning tea is popular. Daily use is where you get the real benefit — it's about consistent support, not a quick fix."

**CALM** Honey Caramel

Benefit

Stress relief & relaxation

Best for

Anyone stressed, anxious, or winding down after a long day.

Pairs with

Chamomile tea · Hot chocolate · Oat milk latte · Evening coffee**Ingredient breakdown — clinically dosed**

Ingredient	Dose	What it does
Chamomile	150mg	Calms the nervous system; mild anxiolytic
Lemon Balm	150mg	Reduces anxiety & promotes positive mood
Jujube Seed	200mg	Traditional relaxation & sleep support
Poria Cocos	200mg	Adaptogen for stress & mental balance
Magnesium	100mg	Regulates the nervous system; aids sleep

How to talk about it

Customer: "Will it make me sleepy?"

"No — it's relaxing, not sedating. Chamomile and Lemon Balm are calming without being drowsy. Think of it as a natural gear-down, not a knock-out."

Customer: "Is it like CBD?"

"Similar goal — targeting stress and tension — but it's adaptogens and botanicals, all organic, nothing psychoactive. Works well in an afternoon or evening drink."

**GLOW** Cherry Almond

Benefit

Skin health & radiance

Best for

Wellness-focused customers interested in skin health from within.

Pairs with

Rose water latte · Hibiscus tea · Berry smoothie · Sparkling water**Ingredient breakdown — clinically dosed**

Ingredient	Dose	What it does
Marine Collagen	2.5g	Rebuilds skin elasticity & reduces fine lines
Hyaluronic Acid	120mg	Deep hydration — holds 1000x its weight in water
CoQ10	80mg	Antioxidant protecting skin cells from damage
Resveratrol	100mg	Anti-ageing polyphenol from red grapes
Vitamin C	200mg	Boosts collagen synthesis & skin brightness
Selenium	55mcg	Protects skin from oxidative stress

How to talk about it**Customer: "How is this different from collagen powder?"**

"It's marine collagen — better absorbed than bovine — combined with Hyaluronic Acid and CoQ10 in a liquid base. Liquid absorption is faster than powder, and the combination works synergistically."

Customer: "How long before I see results?"

"Skin turnover takes time — most people notice their skin feels more hydrated within 1-2 weeks. Visible changes to elasticity and lines typically take 4-8 weeks of daily use."

Is it safe?

Yes. All ingredients are food-grade and manufactured in a UK-regulated facility. As with any supplement, customers who are pregnant, breastfeeding, or on prescription medication should check with their GP first.

Does it contain caffeine?

No added caffeine. FOCUS contains L-Theanine which enhances focus calmly. Any caffeine in the drink itself comes from the coffee or tea, not from NECTA.

Is it organic?

NECTA is 70%+ organic by weight, Soil Association certifiable. No artificial flavours, no artificial sweeteners, no added sugar.

Is it vegan?

FOCUS, IMMUNITY and CALM are fully vegan. GLOW contains marine collagen from fish — suitable for pescatarians but not strict vegans. This is clearly labelled.

How much do I use?

2 pumps = 15ml per serving. This can be used once or twice daily. It can go in multiple drinks throughout the day.

Can you mix them?

Yes — customers can combine, for example, FOCUS in the morning and CALM in the evening. No issue with stacking at different times.

How long until it works?

L-Theanine in FOCUS can be felt within 30-60 minutes. Adaptogen and collagen benefits build over 2-4 weeks of daily use. Consistency is key.

Is it gluten-free?

Yes — all four products are gluten-free.

Does it taste good?

Yes. Each formula has a natural flavour pairing: Vanilla Bean, Hazelnut & Orange, Honey Caramel, Cherry Almond. The vegetable glycerin base adds natural mild sweetness.

Where can I buy it to take home?

nectalabs.com — customers can subscribe and save 15% on regular deliveries. Show them the QR code at the counter for a direct link.

How many servings in a bottle?

250ml pump bottle = approx. 16 servings (2 pumps = 15ml per serving). Sachets are single-serve 15ml.

At a glance

Product	Flavour	Best for	Add to
FOCUS	Vanilla Bean	Mental clarity & focus	Espresso & more
IMMUNITY	Hazelnut & Orange	Daily immune support	Black tea & more
